REQUEST FOR PROPOSALS

Saajha

Validation of Data driven results for external reporting and generation of independent insights

Context and about Saajha

Saajha is a not-for-profit organization head-quartered in Delhi and registered in 2014. It works with the parents and children aged between 5-10 years and studying in the Government schools to enable children to attain better FLN competencies by leveraging their parents' involvement in their learning activities. In 2022-23, Saajha has supported more than 6000 parents and their children intensively, while around 75000 parents have joined the Saajha network and around 40000 parents have asked for light support through messaging the Saajha chatbot.

Purpose of the Request for Proposal

The request for proposal has been shared to invite proposals for validating the results we derive from the rich pool of raw data which gets generated through our activities leveraging the existing tech products. Most of these results are being used for external reporting. Additionally, the present request also seeks proposals to generate some data-based insights independent of Saajha, and to take up any activity necessary to generate the same.

This is a short-term project of 3 months, from April to June, 2023. Following is a tentative list of the activities which might have to be undertaken by the chosen partner.

- Validation of the consistency of the numbers reported with the definitions of terms for which the numbers are reported;
- Validation of calculation processes used by Saajha to arrive at results from the raw data;
- Preparation of draft plan for insight generation including- broad questions to understand, breakup of broad questions to specific questions for data collection, implementation plan including mode, place and resources;
- Data collection;
- Data analysis;
- Report creation

The final collaborator will be decided by Saajha after reviewing all the proposals on the basis of some criteria, which will be laid down clearly in a detailed document.

Submission

We invite you to submit a proposal covering the proposed activities, the resource requirement and the detailed budget, before **March 31st, 2023**. Please mail your proposal at collaborate@saajha.org with subject 'Proposal for external validation of Data Driven Results at Saajha'.
